A webinar on Data Science

Data is the new gold to run after in the tough times today, data powers everything we do and is the much needed tool to survive and emerge as a winner. With the advent of social media, huge volume of data is available which a gold mine of valuable information is.

Data science is the most sought after field in the 21st century. Data Science is an interdisciplinary field that involves extracting valuable insights from data. These insights can be used by analysts, business insiders and industry experts to translate into matter of high business value. Due to the sheer volume of data being generated, there is a need to effectively use data for making better decisions or be left behind.

Department of Computer Science, CVS, under the aegis of IQAC, CVS and in collaboration with Encrypt-the tech society of CVS, organized an informative webinar on Data Science on April 10, 2021. The speaker for this session was an industry expert Mr. Yash who enlightened the budding scientists.
